Luxe Living Room

Lara Michelle Interiors | laramichelle.com

My living room mood board is all about modern glamour! I achieve this by mixing rich colors and lots of visually stunning patterns together. Jewel tones like emerald green, deep navy, lux gold, and black round out the bold yet elegant color scheme. Bold patterns in the coffee table, accent table, throw pillows and spiked oval mirror complement and play off each other in a serious eye-catching way. I added a bit of humor in the pop art perched above the sofa.
